

Fibreplex for Rabbits

Fibreplex is a carrot flavoured paste that contains a high level of fibre to help return movement to the hindgut. Fibreplex also contains:

Probiotics

The live yeast *Saccharomyces cerevisiae* (CNCM I-4407) 4b1702 to help repopulate the intestine with beneficial micro-organisms.

Prebiotics

Preplex[®] prebiotics – fructo-oligosaccharide (FOS) and Gum arabic – a source of nutrition for the beneficial bacteria.

Rabbits can also benefit from Fibreplex if they have a severely reduced appetite, are on a course of antibiotics or have recently had a trauma (such as an operation or injury).
